

Physician Opportunities

Obstetrics and Gynecology

With current and projected demographic growth throughout the First Coast region, multiple OB/GYN practices are looking to expand. BMC Downtown and BMC South are looking for additional physicians interested in partnering with a large reputable group to provide the highest quality of women's care in Baptist's Circle of Care.

Neurology

Baptist Health and several local physicians are teaming together to join a strong neurological group to meet the growing needs of the community. Recent growth to 5 neurosurgeons and Stroke Certification has increased the demand for neurology services at Baptist Medical Center Downtown. Come be a part of this exciting new adventure.

Primary Care

Baptist Primary Care is a physician run network affiliated with Baptist Health. BPC has over 110 physicians in over 40 different locations throughout NE Florida and SE Georgia. Due to recent acquisitions and community growth, BPC is in search for several BC/BE Family Medicine or Internal Medicine physicians interested in an outpatient practice.

Orthopaedics

BMC Nassau and surrounding community desire to increase the current orthopaedic services offered by recruiting a physician interested in general orthopaedics and total joint replacements. Variety of practice support opportunities exists for this practice need.

Hospitalist

Baptist Primary Care, a large physician network with over 100 physicians, provides Hospitalist coverage at three of the four adult hospitals. Physicians mainly focus on just one hospital, striving to provide quality care and seek the appropriate balance of schedules. Each group is constantly growing, so CVs always welcome.

Otolaryngology

Well-established ENT group at Baptist South is seeking BE/BC Otolaryngologist to join practice to meet the growing needs of the surrounding communities. The practice has a large referral base for general ENT, pediatric otolaryngology, otology, sinus surgery, head and neck cancer and endocrine surgery, and reconstructive facial plastic surgery. Continued practice growth and expansion create the need for an ENT to deliver quality care from infant through adults in progressive, fully equipped area hospitals. Come live and work in the fast growing communities of southern Duval and northern St. Johns County.

Physician Opportunities

General Surgery

Baptist Health is working with several general surgery groups that seek to add a partner. This is a great opportunity for a BE/BC surgeon looking to partner with an established physician. Multiple practice scenarios available. Let us help you create your dream job in a town primed for the right balance between work and play.

Urology

Solo Practitioner in beautiful northeast Florida coastal community is seeking BE/BC Urologist to join established, thriving practice. Continued practice growth and expansion create the need for an urologist to deliver quality care to meet the demands of the community in a progressive, fully equipped area hospital.

Generous compensation package with incentive bonus based on production and a short partnership track. Benefits included! All candidates welcome – new graduates, experienced practitioners and fellowship trained.

Psychiatry

Baptist Behavioral Health is one of the only psychiatric groups affiliated with a health system in NE Florida. Come be a part of a dynamic team of clinicians and professionals serving the mental health population of the local communities. A newly renovated inpatient unit overlooking the St. Johns River is the perfect environment for patient care.
